

New Haven High School Mathematics Course Offerings (Semester schedule)

9th grade

Algebra I

10th grade

Geometry

11th grade

Algebra II

12th grade

Pre Calculus
and / or
Probability &
Statistics
and /or
Finite Math

Algebra I

Algebra I

Geometry

Algebra II

Note: This track is for students who need two years to master Algebra I. Pre-Calculus will not be an option here.

Geometry

Algebra II or Honors Algebra II

Pre Calculus
and
Probability &
Statistics

Calculus AP
and
Finite Math

Note on **Probability & Statistics** and **Discrete Math**: The prerequisite for each course is Algebra II. These courses are for Seniors only, or for Juniors who are also taking Pre-Calculus. Both Probability & Statistics and Discrete Math are one trimester courses, and both courses count towards the Academic Honors Diploma. Students taking Calculus AP are encouraged to take one or both these courses as well, provided they fit into their schedule.
